EXECUTIVE SUMMARY

Vision and Intent of this Action Plan

On any given night, more than 171,500 people are experiencing homelessness in California, representing more than one-quarter of all people experiencing homelessness in the United States. Making significant progress in preventing and ending homelessness across the state will require sustained and focused efforts at the Federal, State, and local levels. Through this Action Plan, the California Interagency Council on Homelessness (Interagency Council) is pursuing a vision for the State's work to prevent and end homelessness that features:

- **Increased leadership from the State for identifying and supporting both short-term interventions and long-term solutions:** The State's activities will continue to embrace and advance Housing First practices and approaches, as well as expand access to permanent housing opportunities, which people need to end their homelessness successfully and which can provide the platform from which they can pursue other goals, including educational advancement and employment.
- **Purposeful, action-oriented coordination and alignment across State agencies and programs:** A primary emphasis will be placed on continuing to strengthen the alignment of housing, homelessness, and health care strategies and solutions, to ensure that all Californians, including our most vulnerable neighbors, have equitable opportunities to find home and well-being, as we all deserve.
- **Stronger, collaborative partnerships with public and private partners in communities:** As we continue to scale the investment of State resources into local communities, we will both deliver the guidance and technical assistance that communities need to succeed and implement accountability mechanisms to ensure the effective stewardship and impact of public resources.

This Action Plan orients the State's efforts to drive purposeful, meaningful, and measurable progress toward preventing and ending homelessness in California, motivated by a vision of a future in which homelessness in California is:

- Rare, because it is prevented whenever possible;
- Brief, ended quickly whenever it does occur, through a focus on Housing First approaches and housing outcomes; and a
- One-time experience, ended successfully the first time so that no Californians experience homelessness repeatedly.

Driving Progress Across Five Action Areas

The Action Plan drives progress across five distinct, interrelated, and complementary Action Areas, inclusive of the full range of actions necessary to prevent and end homelessness. The Plan is focused on fifteen Objectives that are aligned with these Action Areas and also identifies 170 Activities that are being implemented in pursuit of those Objectives, as summarized below.

Action Area 1. Strengthening Our Systems to Better Prevent and End Homelessness in California

Activities focused on pursuing racial equity in response to homelessness and housing instability; engagement and partnership with people with expertise from lived experiences of homelessness; supporting interjurisdictional and regional planning; partnerships to strengthen outcomes related to education and employment; public health and disaster preparedness and response; and communications and public awareness.

Action Area 2. Equitably Addressing the Health, Safety, and Services Needs of Californians Experiencing Unsheltered Homelessness

Activities focused on addressing health and safety needs and increasing access to State-supported services and programs for people who are experiencing unsheltered homelessness.

Action Area 3. Expanding Communities' Capacity to Provide Safe and Effective Sheltering and Interim Housing

Activities focused on expanding the supply of safe, housing placement-focused sheltering and interim housing models and addressing health and services needs of people staying within such programs.

Action Area 4. Expanding and Ensuring Equitable Access to Permanent Housing in Our Communities

Activities focused on strengthening Housing First approaches and expanding permanent housing opportunities through development strategies, short- and long-term rental assistance, and other rehousing activities.

Action Area 5. Preventing Californians from Experiencing the Crisis of Homelessness

Activities focused on reducing entries into homelessness as people exit and/or receive services through State-funded programs and systems as well as enhancing communities' capacity to provide targeted homelessness prevention and diversion services and assistance.

Implementation and Performance Measurement

The Action Plan was first adopted in March 2021 and currently covers the State's work from FY 20-21 through FY 22-23. The Plan is focused on the highest-priority strategies that will have the greatest impact, with a commitment to update Activities annually. This year's update intends to capture the full depth of activities related to housing and homelessness being implemented in FY 23-24.

The Plan requires a focus on performance measurement and analyses. Performance measures are identified for every Activity, and implementation progress will be reported to the Interagency Council on a regular basis. Cal ICH staff will use data from the State's newly developed Homeless Data Integration System, from the U.S. Department of Housing and Urban Development, and from the California Department of Education to assess the impact of Federal, State, and local efforts, to document and analyze racial inequities, and to refine this Plan's Objectives and Activities.

All Interagency Council member agencies and departments will pursue the Plan's vision with shared accountability across State entities and with local partners, including consistent and transparent reporting of progress in the implementation of the Plan. The *Action Plan Implementation Progress Report* is prepared annually and is based upon reporting provided by all Interagency Council member agencies and departments. The [Fiscal Year 21-22 Report](#) was adopted by the Council in February 2023. A progress report for FY 22-23 is being prepared at this time for release in Fall 2023.

The Action Plan lays the foundation for shared state accountability that is mirrored by new mechanisms for increased local accountability. This includes a requirement for Local Homelessness Action Plans which were initiated by the state through [Round 3 of the Homeless Housing, Assistance and Prevention](#) program. Local Homelessness Action Plans provide region- and jurisdiction-specific plans, projections, and intent for marshalling state resources towards more efficient systems, as evidenced through key metrics. The design and criteria for approval of the plan components were vetted and approved through the Council.

Conclusion

Driving progress on preventing and ending homelessness requires multi-pronged, multi-year strategies across sectors and systems, supported by data analyses, performance measures, and metrics to assess, refine, and revise those strategies. It also requires a focus on racial equity and an incorporation of people with lived expertise in order to address the disparities that currently exist in our systems. The updating of this Action Plan represents the State's commitment to action-oriented, evolving, and continuously strengthened coordination across entities and programs, in pursuit of a future in which homelessness in California is a rare experience, and is brief and one-time when it does occur.

How to use this Plan: It is the State's intention that people across California will use this Action Plan document to understand the comprehensive range of strategies being implemented across State agencies and programs and to strengthen local discussions, strategies, programs, and policy decisions.

THE CALIFORNIA INTERAGENCY COUNCIL ON HOMELESSNESS

The Homeless Coordinating and Financing Council was established in 2017 to oversee the implementation of Housing First regulations across State-funded programs. In January 2022, HCFC was reformed as the California Interagency Council on Homelessness with the mission to develop policies and to identify and coordinate State policies, resources, benefits, and services to prevent and end homelessness in California.

Current activities, and activities forecast within this Action Plan, are designed to fulfill its role to oversee implementation of California's Housing First requirements and to achieve eighteen statutory goals, including five youth-related goals identified through SB 918 (2018). These statutory goals are pursued through both the Interagency Council of state leaders and a team of Cal ICH staff within the Business, Consumer Services and Housing Agency.

The Interagency Council, co-chaired by the Secretary of the Business, Consumer Services and Housing Agency (BCSH) and the Secretary of the Health and Human Services Agency (CalHHS) is comprised of 18 leaders from State agencies and departments, one community leader appointed by Speaker of the Assembly, and one community leader appointed by the Senate Rules Committee.

Cal ICH staff is responsible for monitoring the implementation of this Action Plan and for working with all members to update the Plan on an annual basis to tailor its Objectives and Activities. Council members are responsible for mobilizing actions and accountability across their agencies and departments in support of the Action Plan's implementation. Cal ICH staff and senior staff across Council member agencies and departments will be responsible for ensuring that the Activities

committed to in this Plan are implemented and well-coordinated. Additionally, Cal ICH staff work with Council member agency and department staff to report to the Interagency Council on department implementation, measures identified within the Action Plan, and progress toward fulfilling Cal ICH's statutory requirements. A team of over sixty Cal ICH staff oversee and implement:

- Major grant programs, including the Homeless Housing, Assistance and Prevention Program (HHAP), Tribal HHAP Grants Program, Family Homelessness Challenge Grants (FHC), and the Encampment Resolution Funding Program (ERF);
- The development and ongoing management of the Homeless Data Integration System (HDIS) and implement analyses and assessment activities;
- Coordination of Interagency Council activities across State agencies and departments to ensure alignment with identified policy priorities and best practices; and
- Partnerships with Continuums of Care (CoCs), Federal agencies, city and county governments, non-profits, housing and services providers, and other stakeholders to advance shared and coordinated work to improve State-funded services and programs.

Cal ICH staff also work in consultation with the Governor's Office and with the Legislature as subject-matter policy experts to guide and strengthen the State's response to homelessness.

ACTION PLAN'S VISION

In developing, implementing, and updating this Plan, the Interagency Council is pursuing a vision for its work to prevent and end homelessness that features:

- **Increased leadership from the State for identifying and supporting both short-term interventions and long-term solutions:** The state's activities will continue to embrace and advance Housing First practices and approaches as well as to expand access to permanent housing opportunities that people need to end their homelessness successfully, which can provide the platform from which they can pursue other goals, including educational advancement and employment.
- **Purposeful, action-oriented coordination and alignment across State agencies and programs:** A primary emphasis will be placed on continuing to strengthen the alignment of housing, homelessness, and health care strategies and solutions, to ensure that all Californians, including our most vulnerable neighbors, have equitable opportunities to find home and well-being, as we all deserve.
- **Stronger, collaborative partnerships with public and private partners in communities:** As we continue to scale the investment of State resources into local communities, we will both deliver the guidance and technical assistance that communities need to succeed and implement accountability mechanisms to ensure the effective stewardship and impact of public resources.

In pursuing this vision, Cal ICH recognizes that the response to homelessness in California must address and reduce systemic racism and well-documented racial inequities in who experiences housing instability and risks of homelessness, in who experiences homelessness, and in how people are served, and the outcomes achieved within the homelessness response systems.

Finally, the vision for this Action Plan is not simply to make changes in how State agencies do their work. Rather, this Action Plan seeks to orient the totality of the State's efforts to drive purposeful, meaningful, and measurable progress. The development and implementation of this Action Plan creates commitments and structures through which the State will relentlessly pursue that vision and will support communities to achieve this vision as well. It creates shared accountability with State departments and local partners as well as adds a sharpened focus on data and analyses that will help assess progress and inform adjustments to strengthen strategies.

The collaborative development of this Action Plan has been driven by a vision of a future in which homelessness in California is rare, because it is prevented whenever possible; brief, ended quickly whenever it does occur, through a focus on Housing First approaches and housing outcomes; and a one-time experience, ended successfully the first time, so that no Californians experience homelessness repeatedly.

ACTION PLAN'S FIVE ACTION AREAS

The Action Plan will drive progress across five distinct but interrelated and complementary Action Areas, inclusive of the full range of actions necessary to prevent and end homelessness.

Action Area 1. Strengthening Our Systems to Better Prevent and End Homelessness in California

Activities focused on pursuing racial equity in response to homelessness and housing instability; engagement and partnership with people with expertise from lived experiences of homelessness; supporting interjurisdictional and regional planning; partnerships to strengthen outcomes related to education and employment; public health and disaster preparedness and response; and communications and public awareness.

Action Area 2. Equitably Addressing the Health, Safety, and Services Needs of Californians Experiencing Unsheltered Homelessness

Activities focused on addressing health and safety needs and increasing access to State-supported services and programs for people who are experiencing unsheltered homelessness.

Action Area 3. Expanding Communities' Capacity to Provide Safe and Effective Sheltering and Interim Housing

Activities focused on expanding the supply of safe, housing placement-focused sheltering and interim housing models and addressing health and services needs of people staying within such programs.

Action Area 4. Expanding and Ensuring Equitable Access to Permanent Housing in Our Communities

Activities focused on strengthening Housing First approaches and expanding permanent housing opportunities through development strategies, short- and long-term rental assistance, and other rehousing activities.

Action Area 5. Preventing Californians from Experiencing the Crisis of Homelessness

Activities focused on reducing entries into homelessness as people exit and/or receive services through State-funded programs and systems as well as enhancing communities' capacity to provide targeted homelessness prevention and diversion services and assistance.

Action Plan's Objectives

The Action Plan identifies a total of fifteen Objectives to be prioritized and pursued across the five Action Areas, as described below. For each Objective, the Action Plan further details:

- Activities to be implemented to drive progress toward achievement of the Objectives.
- The Lead Department or Departments responsible for implementing each Activity, which can be state agencies or departments, interagency Working Groups, or other entities.
- The Collaborating Departments deeply involved in implementing each Activity.
- Timeframes for each Activity.
- Performance Measurements that will be used to assess progress and impact, including process measures, output measures, and, when possible, outcome measures.

Timeframe for this Action Plan

The Action Plan was originally adopted in March 2021 to cover the State's FY 20-21 through FY 22-23, and an updated version was adopted in September 2022.

In September 2023, the Interagency Council adopted an updated Action Plan focused on high-priority Activities that will continue to be implemented or will be initiated during FY 23-24.

The Action Plan is not intended to dictate or direct local activities or to replace local strategic plans, but instead seeks to focus on the highest-priority strategies and efforts at the State level that will have the greatest impact.

The Action Plan Implementation Progress Report for [Fiscal Year 21-22](#) was adopted by the Council in February 2023, and a progress report for FY 22-23 is being prepared at this time for release in Fall 2023.

ACTION AREA 1

Strengthening Our Systems to Better Prevent and End Homelessness in California

▶ Objective 1

Assess and strengthen racial equity-focused activities of State agencies, and local agencies and organizations receiving State funding, and ensure those activities are informed by and accountable to communities most impacted by housing instability and homelessness.

▶ Objective 2

Ensure that State and local planning efforts share power and decision-making with people with lived expertise who are fully representative of communities most impacted by homelessness, including Tribal Nations.

▶ Objective 3

Incentivize and support cross-sector, interjurisdictional, and regional planning, decision-making, and accountability.

▶ Objective 4

Improve access to education and employment services and opportunities for people at risk of, experiencing, and/or exiting homelessness.

▶ Objective 5

Support California communities to develop disaster preparedness plans and public health strategies more inclusive of the needs of people experiencing homelessness.

▶ Objective 6

Increase public awareness of the State's homelessness strategies, successes, challenges, and the importance of Housing First approaches, trauma-informed care, and other best practices.

ACTION AREA 2

Equitably Addressing the Health, Safety, and Services Needs of Californians Experiencing Unsheltered Homelessness

▶ Objective 7

Support California communities to strengthen outreach efforts and to address the health and safety needs of people experiencing unsheltered homelessness.

▶ Objective 8

Provide equitable access to essential State-supported programs and services, including health and behavioral health care services, for people experiencing unsheltered homelessness.

ACTION AREA 3

Expanding Communities' Capacity to Provide Safe and Effective Sheltering and Interim Housing

▶ Objective 9

Partner with communities to implement innovative approaches and expand the supply of safe, accessible, housing-placement focused, and trauma-informed sheltering and interim housing models for Californians experiencing homelessness.

▶ Objective 10

Align and integrate State resources, including health and behavioral health care resources, within temporary shelter and interim housing options, to reduce harm and to better address the health and services needs among Californians experiencing homelessness.

ACTION AREA 4

Expanding and Ensuring Equitable Access to Permanent Housing in Our Communities

► Objective 11

Strengthen understanding and implementation of Housing First approaches and other best practices in order to equitably and urgently rehouse people from temporary settings and from unsheltered homelessness.

► Objective 12

Support the development and creation of affordable and supportive housing opportunities, paired with appropriate health and behavioral health care resources, that are accessible and culturally responsive to people exiting homelessness, to people at lowest income levels, and to people from historically marginalized communities.

► Objective 13

Improve access to flexible short-term and longer-term forms of rental assistance and other subsidies to support racially equitable and successful exits from homelessness.

ACTION AREA 5

Preventing Californians from Experiencing the Crisis of Homelessness

► Objective 14

Reduce entries into homelessness as people exit and/or receive services from State-funded settings and systems, addressing racial inequities within risks of experiencing homelessness, and including a focus on people re-entering communities from jails and prisons, young adults connected to the child welfare and/or juvenile justice systems, and people exiting health care settings and programs.

► Objective 15

Enhance communities' capacity to provide targeted homelessness prevention interventions and to successfully divert people from entering shelter or experiencing unsheltered homelessness.

KEY PRINCIPLES AND PRACTICES

Cal ICH is committed to implementing this Action Plan in alignment with the following principles and practices.

Pursuing Racial Equity and Justice

The historic – and very current – causes of racial injustice that have led to racial inequities in housing stability and homelessness are clear, stark, and even deadly. Cal ICH and its member agencies are committed to understanding of these issues and taking action through the implementation of this Action Plan with a focus on racial justice and equity, particularly for Black, Brown, Pacific Islander, and Indigenous communities and Tribal Nations, as well as through the formation of an interagency Working Group focused on racial equity in housing and homelessness.

Creating Solutions for the Full Diversity of People Experiencing Homelessness

The Objectives and Activities are designed to support progress toward preventing and ending homelessness for all people and populations. To this end, Cal ICH recognizes that strategies, activities, and programs must be trauma-informed and tailored to address the specific needs of people with different experiences and identities. This includes youth and young adults, families with children, single adults, older adults, women, people who identify as LGBTQ+ or gender nonconforming, Veterans, people with disabilities, survivors of domestic and intimate partner violence, among other people.

Seeking and Valuing the Expertise of People with Lived Experiences of Homelessness

Systems, programs, and strategic decisions must be deeply informed by and guided by people who have expertise developed through their experiences of homelessness. Cal ICH will strengthen its partnerships with people with lived experience through the formation of a new Lived Experience Advisory Board, which will deeply inform the implementation of Activities throughout this Action Plan. Cal ICH will also encourage and support communities, and other Cal ICH departments and agencies, to center the voices, expertise, and leadership of people with lived experience of homelessness within their local planning, decision-making, and activities.

Strengthening Housing First Approaches

California has maintained a commitment to implementing homelessness and housing services using Housing First approaches, in order to remove barriers and ensure people have access to the permanent housing and services necessary to support their success. In order to actualize this vision, the State must have a sustained focus on Housing First approaches within communications, guidance, technical assistance and training, and the implementation of State programs. Cal ICH members are committed to this vision and the activities in this Action Plan support the improved implementation of Housing First approaches across state programs and funding.

Balancing Crisis Response and Permanent Housing Solutions

While recognizing permanent housing is the only true solution to homelessness, the thousands of Californians experiencing homelessness right now are facing urgent and dangerous crises every single day. Cal ICH and its members will balance a focus on the immediate crisis needs of people experiencing homelessness, through supportive and non-punitive approaches, with efforts to create the necessary permanent housing options at the scale needed.

Advancing Trauma-Informed Care and Person-Centered Services

Homelessness response systems must strengthen their capacity to implement trauma-informed care, responsive to the impacts of trauma associated with experiences of homelessness, and person-centered services that use strength-based approaches to empower people to identify their goals, make decisions regarding accessing services, and determine their pathways out of homelessness. Cal ICH staff and Interagency Council member departments will ensure that the implementation of state programs and resources will advance these and other best practices.

Aligning Health, Housing, and Homelessness Strategies

As the State provides historic investments into housing and homelessness programs and implements profound reforms within our Medi-Cal program, agencies and departments will strengthen the alignment of housing, homelessness, and health care strategies to ensure that all Californians, including our most vulnerable neighbors, have equitable opportunities to find home and well-being.

Increasing Access to Resources for California's Tribal Communities

California is home to 109 Federally Recognized Tribes, with at least 80 petitioning for federal recognition. California Tribes have reported facing greater barriers and having fewer resources than local jurisdictions and are rarely considered in the development of local homelessness solutions. Further, Tribes experience severe disparities in homelessness and other poor outcomes, such as poverty, unemployment, substance use disorders, and mental health challenges. This is largely the impact of colonization, a failure to meaningfully include and consider Tribes, and ongoing racism. Cal ICH has learned from recent tribal engagement that state funding set asides designed for other jurisdictions are rarely accessible to Tribes, due to their unique needs and varying levels of infrastructure. To support Tribes to address homelessness in their communities, government must work to rebuild relationships with Tribes in culturally responsive ways. Tribes must be meaningfully partnered with to better understand their needs and ensure that state and local policies and programs ensure the accessibility of funding and other opportunities.

ADVISORY AND IMPLEMENTATION STRUCTURES TO DRIVE PROGRESS

The execution of this Action Plan will be supported through additional advisory and implementation structures.

Per AB 1220 (2021), Cal ICH has brought together an **Advisory Committee** that reflects racial and gender diversity, and shall include the following: a survivor of gender-based violence who formerly experienced homelessness; representatives of local agencies or organizations that participate in the U.S. Department of Housing and Urban Development's Continuum of Care Program; stakeholders with expertise in solutions to homelessness and best practices from other states; representatives of committees on African Americans, youth, and survivors of gender-based violence; a current or formerly homeless person who lives in California; and a current or formerly homeless youth who lives in California. Further, this Advisory Committee shall designate a member to participate in every quarterly Council meeting to provide a report to the Council on Advisory Committee activities.

Cal ICH is forming a **Lived Experience Advisory Board (LEAB)**, comprising a variety of individuals with lived experiences of homelessness in California. The LEAB is to inform a broad range of considerations and decisions of Cal ICH and member departments, and to help guide and assess the implementation of this Action Plan. The work towards the formation of the committee is currently underway and the establishment of the LEAB is projected for the current fiscal year.

In addition, **five Working Groups** are to be formed, charged with implementing specific Action Plan Activities, and with developing plans for additional Activities, as described in more detail below. Each Working Group is aligned with priorities identified by stakeholders and partners during the development of this Plan, and some may be time-limited, while others may be sustained for longer terms or on an ongoing basis. Each of the five Working Groups will actively involve external stakeholders and partners alongside State staff, either in advisory roles or as official members of the Working Groups. The information provided below identifies Cal ICH member departments who are expected to be represented on the Working Groups. Representatives may also be recruited from other relevant departments who are not represented on the Council.

Each Working Group will be charged with addressing racial inequities and with tailoring solutions and strategies for different populations of people experiencing homelessness, such as youth and young adults, families with children, adults, older adults, women, people who identify as LGBTQ+ or gender nonconforming, Veterans, people with disabilities, survivors of domestic and intimate partner violence, people transitioning out of corrections settings, and others.

The Working Groups will develop priorities, implementation plans, and measures to guide their actions, and will assess the implementation and impacts of their efforts. Working Groups will regularly report back on their efforts and progress through the quarterly Council meetings.

The Interagency Working Groups are created by Cal ICH staff to convene state employees and community members in order to advance work and progress in the following five areas:

Working Group 1

Working Group 2

Working Group 3

Working Group 4

Working Group 5

1. Maximizing Impact of State Funding and Programs on Homelessness Working Group

State Funding and Programs Working Group

Comprised of State staff only, this Working Group was formed in late 2021 and is charged with:

Identifying opportunities for streamlining deployment of State funding; improving access to funding and programs for organizations deeply engaged with historically marginalized communities, including Tribal communities; documenting and projecting the cumulative impact of State funding, programs, and initiatives on the creation or provision of housing opportunities for people exiting homelessness; creating clearer standards for the housing and services interventions to be supported by State funding and programs; collecting and analyzing data on current state funding, programs, and initiatives and assessing and strengthening their equity impacts; providing guidance regarding best uses of Federal, State, and local funding and regarding targeting and prioritization of people for access to housing opportunities; assessing and addressing challenges that smaller communities face in securing and implementing State funding; and other priorities determined by the Working Group.

Participating Departments

Cal ICH, HCD, CDSS, DHCS, CalOES, CDPH, CDCR, CCCCCO, CDE, CDA, CalHFA, DSH, CalVet, Caltrans, and other Cal ICH member departments with relevant funding programs.

2. Racial Equity in Responses to Homelessness and Housing Instability Working Group

Racial Equity Working Group

Including both State staff and external stakeholders, this Working Group was formed during 2022 and is charged with:

Expanding the range of strategies and activities being implemented by State agencies; analyzing data and reporting across State programs to assess equity in access, housing interventions, services, and outcomes for Black, Indigenous, and people of color; refining procurement processes to ensure more equitable distribution of funds and reach into historically marginalized communities, including Tribal communities; providing guidance to support communities to not implement inequitable policies and practices, including criminalization measures and enforcement activities; and other strategies and activities to address inequities in homelessness and housing instability determined by the Working Group.

Participating Departments

All Cal ICH Member Departments

3. Tailoring Strategies for Preventing and Ending Homelessness for Youth and Young Adults

Youth and Young Adults Working Group

Including both State staff and external stakeholders, and charged with:

Complementing youth-focused efforts across the other Working Groups with a focus on: assessing the impact of State homelessness and housing programs in creating opportunities for youth and young adults; identifying and removing barriers to access to State-funded programs for youth-serving organizations; providing guidance regarding assessment processes, tools, and prioritization policies that appropriately address safety and other needs of youth and young adults; identifying strategies for preventing homelessness among youth with connections to child welfare, juvenile justice, and other systems; and other priorities determined by the Working Group.

Participating Departments

Cal ICH, CalOES, CDSS, CCC, CDE, HCD, DHCS, CDCR

4. Strengthening Employment Opportunities and Outcomes for People with Experiences of Homelessness Working Group

Employment Working Group

Including both State staff and external stakeholders, and charged with:

Identifying strong and promising practices, including services, training, and social enterprise models, and opportunities for more formal evaluation activities; supporting stronger focus on employment and income within homelessness response systems; exploring opportunities to better serve vulnerable and underserved populations under the Workforce Innovation and Opportunities Act regulations and programs;

identifying strategies to address education and employment goals of youth experiencing homelessness; increasing focus on creating employment opportunities through State programs and funding; and other priorities determined by the Working Group of State.

Participating Departments

DSS, HCD, CalOES, CDCR, Caltrans, CCC, and other State departments with relevant programs

5. Preventing Homelessness Among People Transitioning Back into Communities from Corrections Settings Working Group

Transitions/Re-Entry Working Group

Including both State staff and external stakeholders, and charged with:

Strengthening efforts to prevent entries into homelessness for both youth and adults; addressing the housing navigation needs of people exiting corrections settings; creating clearer expectations for discharge planning to support exits to stable living arrangements; strengthening coordinated handoffs from corrections and juvenile justice settings to transition services; reducing barriers to housing for people on parole/probation; analyzing data drawn from HDIS and other state, federal, and local data sources to better define barriers, inclusive or urban, suburban, and rural areas of state; and other priorities determined by the Working Group of State staff and external stakeholders.

Participating Departments

Cal ICH, CDCR, CDSS, DHCS

HOMELESSNESS IN CALIFORNIA

According to the most recent estimates, on any given night, more than 171,500 people are experiencing homelessness in California, representing more than one-quarter of all people experiencing homelessness in the United States, and including:

- Nearly 146,000 adult individuals
- Nearly 26,000 people in families with children
- Nearly 9,600 unaccompanied youth
- More than 10,000 Veterans
- Nearly 58,000 chronically homeless individuals (people with disabilities with long-term and repeated patterns of homelessness)

Among California's homeless population, approximately 67% are unsheltered and 33% are sheltered. People experiencing chronic homelessness experience a higher rate of unsheltered homelessness at 76%, and are people with disabilities, one of the fastest growing populations experiencing homelessness.

Homelessness in California reflects stark racial inequities and the impacts of systemic racism.

The disproportionate negative impacts of system involvement in the criminal legal system, lack of quality and affordable health care, housing discrimination and the continued impacts of redlining policies, and a host of other socially determined factors have had catastrophic impacts on Black, Indigenous, and people of color (BIPOC) in California. Black Californians make up about 7% of the state's population yet represent nearly one-third (30%) of the more than 171,500 people experiencing homelessness across the state.

The persistence of these racial inequities has been perpetuated by public policies that have actively worked to the disadvantage of BIPOC communities and require thorough analysis and urgent, innovative, and sustained actions to address, reduce, and eventually eliminate these disparities and achieve racial equity. The Council and staff at Cal ICH are committed to centering a focus on racial equity and justice within data analyses, within training and technical assistance efforts, and within the implementation of State programs.

2022 Point-in-Time Counts

Estimates of Homelessness

Source: The 2022 Annual Homeless Assessment Report (AHAR) to Congress, U.S. Department of Housing and Urban Development

People Served by State’s Homelessness Response System in 2022

Drawing from the state's Homeless Data Integration System (HDIS), as opposed to the annual Point-in-Time Counts used above, Cal ICH estimates that over 316,940 people were served by state-, locally-, and federally-funded homelessness services and housing programs that enter data into HMIS during the 2022 calendar year through services such as emergency shelters, temporary housing, rental assistance, and permanent supportive housing. Half of the estimated people served were in jurisdictions within four Continuums of Care: Los Angeles (29%), San Diego (8%), Orange County (7%) and San Francisco (6%). The demographics of those served depict a system that is serving people with a wide variety of needs, experiences, and backgrounds. Among those served, over half were either 24 and under (30%) or over 55 (20%). Additionally, the race and ethnicity breakdown reflects those demographics in the population of people experiencing homelessness in California overall, suggesting that, collectively, programs in California are reaching those groups proportionately.

Additional updates and changes to HDIS will improve and expand on the state's ability to understand the reach of its programs and the people served. For more information see <https://www.bcsh.ca.gov/calich/hdis.html>.

DEFINING AND MEASURING PROGRESS

This Action Plan includes a strong commitment to accountability and performance measures. Each Activity includes Process Measures, Output Measures, and/or, when possible, Outcome Measures.

Cal ICH launched the State's Homeless Data Integration System (HDIS) in Spring 2021 to securely collect, match, and de-duplicate records from local Homeless Management Information Systems. HDIS allows the State of California to access and compile standardized homelessness data collected by individual Continuums of Care (CoCs) in order to make data-driven policy decisions aimed at preventing and ending homelessness in California. Specifically, it increases the State's ability to identify patterns of service usage across regions, specific sub-populations, and support broader efforts to identify racial and other inequalities among people experiencing homelessness. Further, recognizing the need to continue to strengthen the comprehensiveness of data, the State is expanding HMIS reporting and HDIS data to include more state funded homelessness programs.

In addition, beginning with the third round of the Homeless Housing, Assistance and Prevention (HHAP) program, Continuums of Care, Counties, and Cities receiving HHAP funding have been required to submit local homelessness action plans which include landscape analyses, outcome goals set against standardized measures, and strategies for achieving those goals, subject to Cal ICH review and approval. The goals set within these local homelessness action plans will enable the State to better project progress to be made across the state, to monitor performance against those projections, and to tailor and target strategies that can support increased progress.

Cal ICH will use data from HDIS, from the U.S. Department of Housing and Urban Development, and from the California Department of Education, to regularly analyze, review, report upon, and publicly share key measures regarding homelessness in California, in order to assess the impact of Federal, State, and local efforts; document and analyze racial inequities; and refine this Plan's Objectives and Activities.

See the next page for these key performance measures.

Key Performance Measures:

These measures have been updated to align with the California System Performance Measures (CA SPMs), pursuant to Health and Safety Code §50220.7, that help the state and local jurisdictions, including HHAP grantees, assess their progress toward preventing and ending homelessness.

The number of **Californians experiencing homelessness**, including Veterans, people experiencing chronic homelessness, families with children, adults, and unaccompanied youth.

The number of **Californians experiencing homelessness for the first time each year.**

The number of **Californians successfully exiting homelessness into permanent housing each year.**

The **average length of time Californians are remaining homeless** while accessing services.

The percent of **Californians returning to homelessness after exiting homeless to permanent housing each year.**

The number of **Californians successfully placed from street outreach** into emergency shelter, transitional, or permanent housing each year.

The number of **children and youth experiencing homelessness at some point during the school year in California**, including students in families and unaccompanied students.

Comparison of **California's performance across these measures to national and regional trends as well as by race and ethnicity.**

Note: A summary of measures for FY 21-22 can be found in the [Action Plan Implementation Progress Report for Fiscal Year 21-22](#). Performance against these updated measures will be included in FY 22-23 Progress Report to be issued in Fall 2023.

DEVELOPMENT AND UPDATING OF THIS ACTION PLAN

Under the guidance and direction of the Interagency Council, and deeply informed by planning conversations with State staff and input discussions with external stakeholders, Cal ICH staff and consultant Matthew Doherty led the development and updating of this Action Plan. Interagency Council meetings were used as critical milestones and decision points in its development.

The process of developing the original Action Plan was initiated in July 2020, including surveying conversations with Council Members and the initiation of extensive external input conversations. Over the course of five regular and special Council meetings, the Plan's Action Areas and Objectives were developed and adopted, current and planned Activities across State agencies were identified, and priorities for additional State activities based on external stakeholder conversations were discussed, ultimately leading to the Action Plan being adopted by the Interagency Council at its March 2021 meeting. Further, an updated version of the Plan was prepared during 2022 and adopted by the Interagency Council in September 2022.

This most-recent updating of the Action Plan was initiated in February 2023, followed by planning conversations with State staff and stakeholder engagement activities, including two virtual input sessions, two Tribal input sessions, and discussions with local advisory bodies of people with lived expertise. A [summary of input](#) gathered at public and Tribal sessions was provided to the Interagency Council at its May 2023 meeting. The Interagency Council discussed priorities for the updated Action Plan at its May 2023 meeting, and the updated Plan will be considered for adoption during the September 2023 Interagency Council meeting.

A list of organizations that have been represented within external stakeholder input conversations is included as [Exhibit A](#), with regrets for any accidental omissions of organizations who participated in input discussions.

OBJECTIVES, ACTIVITIES, TIMEFRAMES, AND PERFORMANCE MEASURES

Driving progress on preventing and ending homelessness, and toward racial equity, requires multi-pronged, multi-year strategies across sectors and systems, supported by data analyses, performance measures, and metrics to assess, refine, and revise those strategies. The development, adoption, and updating of this Action Plan are significant steps forward for Cal ICH and for the State of California. This Plan represents a commitment to action-oriented coordination across State agencies and programs and to deeper collaboration with public and private partners in communities, in pursuit of a future in which homelessness in California is a rare experience, prevented whenever possible, and is a brief and one-time experience when it does occur.

The tables on the following pages document this Action Plan's Objectives, planned Activities, Timeframes, and Performance Measures that will be used to assess the implementation of the Activities. Further, the departments with lead responsibility for implementing the Activities, their collaborating Cal ICH member departments, and other State departments that might be engaged into the Activities are clearly identified.

Action Plan Objectives, Activities, Timeframes, & Performance Measures

Action Area 1. Strengthening Our Systems to Better Prevent and End Homelessness in California

Action Area 2. Equitably Addressing the Health, Safety, and Services Needs of Californians Experiencing Unsheltered Homelessness

Action Area 3. Expanding Communities' Capacity to Provide Safe and Effective Sheltering and Interim Housing

Action Area 4. Expanding and Ensuring Equitable Access to Permanent Housing in Our Communities

Action Area 5. Preventing Californians from Experiencing the Crisis of Homelessness

Action Area 1. Strengthening Our Systems to Better Prevent and End Homelessness in California

Activities focused on pursuing racial equity in response to homelessness and housing instability; engagement and partnership with people with expertise from lived experiences of homelessness; supporting interjurisdictional and regional planning; partnerships to strengthen outcomes related to education and employment; public health and disaster preparedness and response; and communications and public awareness.

► Objective 1

Assess and strengthen racial equity-focused activities of State agencies, and local agencies and organizations receiving State funding, and ensure those activities are informed by and accountable to communities most impacted by housing instability and homelessness.

► Objective 2

Ensure that State and local planning efforts share power and decision-making with people with lived expertise who are fully representative of communities most impacted by homelessness, including Tribal Nations.

► Objective 3

Incentivize and support cross-sector, interjurisdictional, and regional planning, decision-making, and accountability.

► Objective 4

Improve access to education and employment services and opportunities for people at risk of, experiencing, and/or exiting homelessness.

► Objective 5

Support California communities to develop disaster preparedness plans and public health strategies more inclusive of the needs of people experiencing homelessness.

► Objective 6

Increase public awareness of the State's homelessness strategies, successes, challenges, and the importance of Housing First approaches, trauma-informed care, and other best practices.

ACTION AREA 1

STRENGTHENING OUR SYSTEMS TO BETTER PREVENT AND END HOMELESSNESS IN CALIFORNIA

OBJECTIVE 1: Assess and strengthen racial equity-focused activities of State agencies, and local agencies and organizations receiving State funding, and ensure those activities are informed by and accountable to communities most impacted by housing instability and homelessness.
